PROFILE

I'm a passionate Front-End Developer with a strong focus on building modern, responsive, and user-friendly web applications. I have solid experience with HTML, CSS, and JavaScript, and I'm proficient in using modern tools like Tailwind CSS and React.js. I'm skilled in interacting with APIs to create dynamic and integrated web experiences. My goal is always to deliver smooth user experiences and write clean, scalable code. I continuously strive to learn and stay updated with the latest web technologies.

PROJECTS

Unsplash Image Search App   Live Demo

- Developed a responsive image search application using React.js and Tailwind CSS.
- Integrated with the Unsplash API to fetch and display images based on user queries.
- Designed an intuitive and efficient user interface for an excellent search experience.

Travel Booking Website Front-End   Live Demo

- Built an interactive and responsive front-end for a travel booking website using React.js and Tailwind CSS.
- Designed multiple pages including flight search, booking details, and image galleries.
- Focused on a seamless user experience and modern design.

Personal Portfolio Website   Live Demo

- Designed and developed a comprehensive and responsive personal portfolio website using HTML, CSS, JavaScript, and Tailwind CSS.
- Showcased my skills and previous projects in a professional and engaging manner.
- Ensured compatibility across various devices and screen sizes.
